APPLICATION

COMES NOW the applicant, SM Energy Company, and respectfully alleges as follows:

1. It is the owner of an interest in the oil and gas leasehold estate underlying all or portions of Sections 28 and 33, Township 160 North, Range 99 West, Divide County, ND, and is the operator of the Hagen 3-28HN (File No. 30703) and Hagen 3-28HS (File No. 30702) wells which are either drilled, permitted, or in the process of being permitted on a spacing unit consisting of said lands.

2. Section 43-02-03-48.1 of the North Dakota Administrative Code provides that commingling of production from two or more wells having diverse ownership that is not metered prior to commingling may be approved after notice and hearing.

3. Applicant desires to commingle production from said wells in a common production facility and allocate production to the individual wells on the basis of periodic testing through a test facility. Ownership in one or more of the wells commingled in the facility is diverse. In applicant's opinion, such will provide for efficient and economic operation of both wells and thereby maximize production and minimize waste, and will result in reasonably accurate allocation of production, thereby protecting the correlative rights of all parties.

4. Applicant requests that it be allowed to present testimony by telephone pursuant to Section 43-02-03-88.2 of the North Dakota Administrative Code.
